

SBD International School, Jajpur Road

Annual report 2025- 26

The journey of SBD International School from 2015 till date itself is a true reflection of vision, dedication, and perseverance. From a humble beginning with just 87 students, today we stand strong as a family of more than 1,400 students. Over the past decade, our institution has witnessed remarkable growth and transformation—academically, infrastructurally, and technologically—making us a center of excellence in holistic education.

The metamorphosis of our school is clearly visible in every sphere—be it state-of-the-art infrastructure, innovative teaching methodologies, or the effective integration of technology in education. In alignment with progressive educational practices, SBD International School has successfully integrated STEAM Education for classes Nursery to Grade 10, ensuring a hands-on, practical, and experiential approach to learning. Through Science, Technology, Engineering, Arts, and Mathematics, our innovative learners are encouraged to explore, experiment, question, and innovate, nurturing creativity, curiosity, and critical thinking from an early age.

Our school believes in education beyond textbooks. Students have actively participated in plantation drives, cleanliness drives, and blood donation camps, helping them grow into responsible and socially aware citizens. We celebrate special assemblies and academic events to explore the science and history behind festivals, observe international festivals while staying rooted in our culture.

We strongly believe that every child is unique and possesses immense potential. Our aim is not merely to produce doctors, engineers, or entrepreneurs, but to nurture good human beings—individuals grounded in values, empathy, discipline, and integrity.

The reflection of our collective efforts is evident in our academic achievements. In the CBSE Board Examinations, the school achieved a 100% pass result with an impressive school average of 85%. More than 20 students scored above 90%, showcasing consistency and excellence. A special mention goes to Saanvi Patnaik, our school topper, who secured an outstanding 98.8%, bringing great pride and laurels to the institution.

Dear parents, our Annual Report would remain incomplete without acknowledging the remarkable achievements of our students in various fields at both state and national levels. Though time does not permit us to mention every achiever, we deeply appreciate and applaud each student who has brought honor to the school.
